Administration – Division Chief Jamey Bumgarner

Summary of Significant Events:

- The final inspection of the new Type 3 Engine was completed.
- Facilitated the first quarter budget planning meetings.

Public Education / Community Outreach:

- Met with several builders about current and upcoming projects in the district.
- Worked to refine the project scopes for fleet and facilities in 2024.

Fire Inspections / Plan Review Services:

- Continue to meet with the Town of Monument Development Review Team over commercial developments.
- Completed fire finals on two commercial properties and conducted several in-process inspections for a multi-family project.

Administrative Services:

- Fire Station 3:
 - MFD, NV5, OZ, and the developer met with Town Planning & Engineering on 10/27/23 to introduce the “project” and to seek feedback about the subdivision and public improvement process.
 - The town advised that a plat, public improvement agreement, and subdivision improvement agreement will be required of the developer/seller.
 - The developer/seller must also complete a major subdivision process. This entire process is estimated to take 6-9 months.

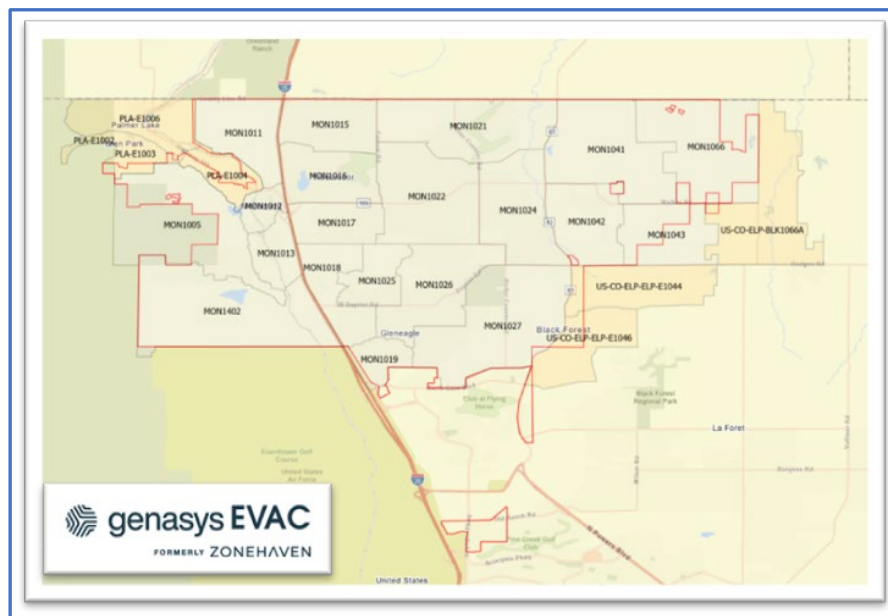

- The seller and MFD have been negotiating the purchase and development agreements. The sale price will be fixed at fair market value, and an updated appraisal will be required before closing. The board will be asked to review and take action on these agreements in the February board meeting.
- MFD and our owner's representative (NV5) will meet to revise the program plan for the project and kick off the design phase with a charette. This will be an all-day, immersive experience, and the attendees will learn more about fire station design best practices and participate in work sessions to define the needs and operations requirements of the site and each building component. NV5 will coordinate the attendees list with the Fire Chief.

Fire Investigations:

- Continue to meet monthly with the Pikes Peak Fire Investigation Task Force.

Accreditation – Accreditation Manager Scott Ridings

- Genyas EVAC, formerly Zonehaven, has been implemented and is operational to inform residents of any needs during an emergency. Genyas Protect EVAC enables responding agencies to react swiftly, make collaborative decisions, and communicate event status in real-time to dispatch, other agencies, businesses, and the public during an emergency. Determining and communicating the proper scope of a response or evacuation, replacing guesswork with data-driven intelligence. With EVAC, it enables faster and more precise emergency response and evacuation. The Multi-Threat Planning & Modeling tool models behaviors to plan for effective responses and/or evacuation scenarios covering emergencies like wildfires, floods, active shooters, hurricanes, and more.
