SIDING MATERIAL DESCRIPTION:

PPRBD SIDING PERMIT NUMBER:

Chapter 4 of the Colorado Wildfire Resiliency Code (CWRC) requires any structure within the WUI Class II risk area receiving 25% or more net exterior siding replacement must comply with the CWRC for ignition-resistant siding and fuels management.

Siding replacements exceeding 25% surface area of the structure must meet the following:

1. Siding material must meet hardened structure requirements of CWRC 404.3.1.
 - *Please note:* We recommend bringing the entire structure up to full hardened-structure standards to provide the greatest protection for your home in the event of a wildfire.
2. The base of exterior walls shall be protected from ember intrusion with flashing per CWRC 404.3.2
